Head-Line and Calendar items are due by the 15th of the month prior to publication. Camera ready contributions are appreciated, but not necessary. Calendar entries may be emailed, telephoned, or snail-mailed to the Calendar/TGIF Coord. Permission is granted to reprint material from the Head-Line in any Mensa publication, with appropriate credit, unless the material is copyrighted.

The Head-Line is the monthly publication of Mid-Michigan Mensa. Annual subscription rate is $5.00 for members and is paid through American Mensa, LTD. The annual non-member rate is $10.00 and is limited to current members of other Mensa groups. Office of Publication is 812 Applegate Lane, East Lansing, MI 48823. USPS 120-990.

WENDY'S WORLD

Wendy Carnegie,

August is a very busy month for MMM so be sure to check out the calendar. As I'm a history buff, I'm looking forward to visiting the Grand Ledge Historical Museum. I'm also looking forward to our Anniversary Party--always a good time--and to the Meet In The Middle, again a fun time. See the articles in this issue for more about these events.

Check out the article on the last Lugnuts game. It is a chance to earn about $350 for our scholarship fund. Please think seriously about volunteering. We need your help.

I'm still learning what the LocSec duties are. I've been in touch with Julie Clark at AML and she has been so helpful. I should send her flowers as a thank you. I am happy to say I've heard from all the Appointed Officers and they have all agreed to continue in their offices. My thanks to all of you. Last month I asked for volunteers for the Scholarship and Gifted Children Chairs. I am happy to announce that Marvin Fouty has agreed to Chair the Scholarship Committee. Thank you very much Marvin. Now, anyone willing to Chair the Gifted Children Committee? I'm hoping we will be able to revitalize MMM with the help of this team of officers. During my term as LocSec, I want to concentrate on increasing and retaining MMM membership. Let me know if you have any ideas about this or any thing else you would like to know.

In addition to all that's going on with MMM this month, I have few fun things to do. I'm off to Stratford, Ontario again. I'll be there 4 days and will see 4 of Shakespeare's plays: A Word or two, Henry V, Much Ado About Nothing, and Cymbeline. Fun, fun, fun. Then I'm going to my 45th class reunion--can't believe it's been that long. I haven't been to one in a long time--maybe 25 years. I don't feel that old. Should be interesting seeing my classmates again.

I hope to see you at one of the many MMM happenings this month.

Till next month...

reMARK, August 2012

Betsy Yvonne Mark, RVC3

I'm sure that, if you asked me on July 8th, I'd say that the Annual Gathering was fabulous! It's June 27 and I have a deadline of the 28th for this column because some very important Mensans – editors, to be specific – have to put their newsletters to bed before they go to the AG. Register now for the 2013 AG to be held in Fort Worth, Texas, and get the lowest rate for a great long weekend.

I traveled! I had dinner with Western Pennsylvania Area Mensans on June 5, with Western New York Mensans on June 6 and with Rochester Area Mensans on June 7. My dinners were wonderful, made so by the company I had. Thank you all for joining me. And, while in Buffalo, I got to see Niagara Falls. It was definitely a spur of the moment thing, but it was awesome – as awesome as my Mensa friends.

The 2012 Columbus Area Mensa RG was a spectacular event. I know all who attended had a great time.

I hope, as you are reading this, if it's August 4, I'm at Cleveland Area Mensa's annual picnic. If you are in the area, join everyone there. It's gonna be great!

I read all of Region 3's newsletters and know that there are wonderful events planned by those in your local groups; do attend them and be sure to attend the following two Region 3 RGs.

Western Pennsylvania Mensa takes you around the world in 80 hours this Labor Day weekend. See the world without pesky airport lines! Registration for adults and kids ages 4-9 is $90 and $45 until July 8 (the AG), $95 and $48 until Aug. 1 (Columbus RG), $99 and $50 postmarked by Aug. 26, and $115 and $58 at the door. Single-day registration rates for adults and kids ages 4-9 are $30 and $15 for Friday, $50 and $25 for Saturday, $50 and $25 for Sunday, $25 and $13 for Saturday or Sunday evening only, $25 and $13 for Monday. MP: all included. Checks payable to WPAM RG. Hotel: Doubletree (formerly Radisson), 101 DoubleTree Dr., (aka 101 Radisson Dr.), Pittsburgh, PA 15205; 800/445-8667; www.doubletree1.hilton.com/en_US/dt/hotel/PITGTDT-DoubleTree-by-Hilton-Hotel-Pittsburgh-Green-Tree-Pennsylvania/index.do. Room rates ($89) guaranteed until Aug. 11. CD 9 and under, H RP Aug. 20 cutoff DT SA CP H/AS. Contact Jamie Fritz, 345 Thompson Run Rd., Penn Hills, PA 15235; 412/612-0634; jlongstreth@comcast.net.

Continued on Page 3

ReMARK--Continued

Cincinnati Area Mensa is in an excited state (any of the energy levels of a physical system – like an RG committee) as you are invited to the HyperchaRGed gathering. (Hypercharge: the quantum number equal to B [baryons] + S [strangeness] + C [charmed].) Gravitational attraction and radiant energy brings you to the Doubletree in Sharonville starting Nov. 30, and inertia takes you to a half-life of the event on Dec. 2. The natural frequency of this event is 30! Yes, the 30th Regional Gathering! Positronically assured of a periodic table of entrees, Quark's bar, luminosity in the programs and momentum in the tournament track. Quanta rates are (all postmark dates) $60 through June 1, $65 through Aug. 1, $70 through Nov. 24, $75 thereafter. Children under 5 are free. Ages 6-10 are $15. Ages 11-20 are half the full rate. Partial rates are available at the door. Friday only = $30; Saturday only = $65. Saturday dinner and dance (after 5 p.m.) = $40. No rollovers. Refunds must be requested by Nov. 29, 2012. Checks payable to Cincinnati Area Mensa RG. Hotel: Doubletree, 6300 E. Kemper Rd., Sharonville, OH 45241; 513/489-3636; www.doubletree.com/hotels/CVGKRDT. Room rates ($99) guaranteed until Nov. 15. S CD 10 and under, H RP 11/29/12 cutoff DT. Contact Cassie Ryle, 7270 West Chester Rd., West Chester, OH 45069; 513/755-6322; cassier@fuse.net.

I am looking forward to seeing you soon.

LLAP and Peace,

Betsy

Math Puzzle

Bob Henderson

All you really need to know in order to solve the following tricky-looking plane geometry puzzles are the formulae for the area of a circle (Pi times the square of its radius) and the area of a triangle (half the product of its base and height), and what shape you get when you stretch a circle or ellipse evenly in any direction or view it at an angle (another ellipse). Good luck!

A. What is the area of the largest ellipse that will fit completely inside a triangle with side lengths of 3, 4, and 5 inches?

B. What is the area of the smallest ellipse that will fit completely outside the same triangle?

+ − × ÷ ≈ √

Answers to Math Puzzle

Let's start with the simplest case of an equilateral triangle with a side length of sqrt(3) = 1.732 inches. The lines that bisect both the 3 corner angles and the 3 sides cross at its center and are 1.5 inches long. The center is 1 inch from each corner and 0.5 inch from each side, based on the ratio of the lengths of the sides of a 30-60-90 degree triangle. These are also the radii of the circumscribed and inscribed circles, respectively, which are also the smallest and largest such ellipses. The areas of these circles are Pi and Pi / 4 square inches, while the area of the triangle is half of its base times its height (3 * sqrt(3) / 4, or about 1.3 square inches).

If you think of these plane figures as being drawn on as a rubber sheet, it and they can be stretched uniformly in any direction without changing the relative sizes of the figures. In particular, the equilateral triangle can be stretched to make a right triangle of side lengths 3, 4, and 5 inches having an area of 6 square inches. This will stretch the circles into ellipses, but will not change the ratios of their areas to the triangle area. The stretching operation increases both the the triangle area and the circle areas by a factor of 6 / (3 * sqrt(3) / 4) = 8 / sqrt(3), so the largest inscribed ellipse area is 2 * Pi / sqrt(3), or about 3.63 square inches, and the smallest circumscribed ellipse area is 8 * Pi / sqrt(3), or about 14.5 square inches.

STEERING COMMITTEE MEETING MINUTES

Eileen Hatt, Acting Scribe
July 13, 2012

PRESENT: Wendy Carnegie, Eileen Hatt, Bob Henderson, and Frank Dolinar.

The meeting was called to order by Wendy Carnegie.

Steering committee. Wendy Reported that all the Appointed Officers have agreed to remain in office. Also, Roy Saper has agreed to remain as Treasurer and Doug McCall will remain as Webmaster. Wendy will remain as Editor. See the Masthead on back of the front cover for a list of officers. Wendy reported that elected and appointed officers should be receiving an Interlock subscription. The members present for this meeting have not received any. Wendy will check on it.

Testing. Eileen reported only one test will be held in August. It will be at Wendy Carnegie's on Saturday, August 28 from 12:00 to 2:00 P.M.
Eileen said she tried to reserve a room at the East Lansing Library, but there weren't any available on the weekends. The cost of using the East Lansing Library or the Foster Center (both $30 per day) was discussed. Eileen pays for these herself and is reluctant to ask for reimbursement due to the our small bank balance. Wendy said she had noticed something about National subsidizing testing sites. She will check with Betsy Mark, RVC 3 on this.

Bylaws. Wendy reported that she didn't get the Bylaws completed, but hopes to have them for the next Steering Committee.

Scholarship. Frank reported he is still waiting to receive notice regarding the IBM grant. Elizabeth Evangelista reported to Wendy that a friend and retired IBM employee has donated a sizable amount to MERF for our Scholarship Fund. This is the Slavin Family Foundation. More details on that next month.

Picnic. The Annual Party is scheduled for August 5 and will again be hosted by Al and Gail Wolfe. There will be another article in the August Head-Line.

Meet in the Middle. The Annual Meet in the Middle will be Wednesday, August 22, at Zhu New Century Buffet in Howell.

Adjourn. The meeting was adjourned by Wendy.

Winning Scholarship Essay

Raelynne Nicole Ferden

I am pursuing my degree in language arts elementary education with a minor in Spanish. I am also taking the undergraduate equivalent classes for the Masters of Teaching and Curriculum (MATC) graduate program with an English as a Second Language (ESL) endorsement. Upon completing my master's degree program, I would like to work with people of all ages who are learning English as a Second Language. Although it seems like I have my career all figured out, it took me a long time to figure out exactly what I wanted to do.

I have been volunteering at the Higgins Lake camp for 11 years now. It was after four years of volunteering at a four day camp at Higgins Lake for mentally disabled adults that I was carefully selected for internship based on the leadership skills I exhibited at the camp. The internship took place at Peckham Inc working in the Supported Work Experience program in which I worked with disabled adults that finally led me to my career. The internship required me to single handedly run and coordinate a camp for over 100 people with disabilities and 30 volunteers. I was the key person at this event and did all event planning, medication distribution, and handled any issues that may arise. Peckham Inc employs many people from all over the world that have disabilities that prohibit them from obtaining other jobs. These disabilities could be mental, emotional, and physical disabilities or even because of language barriers by not being able to speak English. At the internship, I was also exposed to hundreds of different cultures and languages which led me to want to work with people who were learning English as a Second Language. This will be my third year as an intern at Peckham Inc.

For one of my college courses, I was placed at the Refugee Development Center in which I helped teach an English language course to people from other countries. It was a very rewarding experience in which I was able to put my Spanish minor to use and was specially assigned to individually work with the students from Cuba and other Spanish speaking countries. During my time at the center, I basically had to become a teacher by taking on the responsibility to work with these students and ensure that they understood the material since I was the only one who spoke Spanish in the classroom that was not a student.

I also have worked in several daycares teaching lesson plans and as a substitute teacher at a Montessori School in order to gain additional teaching experiences. By working in daycares and in the school system,

Continued on Page 9

Winning Scholarship Essay--Continued

it shows that I am dedicated to providing myself with a large range of teaching experiences to make me the best teacher that I can possibly be.

All of these experiences show my want and dedication to providing a strong education to my current and future students. These experiences have taught me that I want to be a teacher who employs various methods to ensure that everyone has a chance to learn and that I also want to provide a learning environment that is safe and encouraging to my students. By providing myself with these teaching experiences, I am preparing myself for a successful career as an educator.

Food For Thought

By Barb Ford

Our everyday language has expressions and phrases that have a multitude of origins. As I was tending to my young chickens recently, I thought of how much chickens have influenced our communication. As I share the expressions that came to mind, please don't think I have nothing else to do…I had fun with this. Actually the things that run through my mind might be considered funny or even scary. At any rate, the chickens get me. Maybe you can add to my collection.

"CHICKEN LINGO" Phrase/ "meaning"
Cooped up/ shut in
Pecking order/ hierarchy of authority
Old Biddy, or crabby old hen/ grumpy old lady
Chick/ young girl
Chicken scratching/ bad handwriting
Scratching around/ scrounging
Scratch/ money
Hunt and peck/ sloppy keyboarding
Gone to roost/ gone to bed
Cocky/ sure of one's self
Strutting one's stuff/ showing off
Fox in the henhouse/ traitor
Ruffle one's feathers/ offend
Preen/ primp
Crowing/ boasting
Up with the chickens/ getting up early
Cackle/ laugh
Mad as a wet hen/ *really* mad
Shake your tail feathers/ hurry up
Empty nesters/ parents whose kids have moved out
Cozy nest/ comfortable home
Chicken feed/ not much money
City chicken/ fancy girl
Broody/ keep to one's self
Peckish/ hungry
Run around like a chicken with its head cut off/ *really* freaked out
Dumb cluck/ kind of slow
Chicken legs/ skinny legs
Chicken/ scared
Playing chicken/ dare devil game with vehicles
Cockeyed/ uneven

Why did the chicken cross the road?
Nobody knows, and the hens aren't talking about it!

More Fun With Words

Internet

I tried to catch some fog, but I mist.

What do you call a dinosaur with an extensive vocabulary? The saurus.

England has no kidney bank, but it does have a Liverpool .

I used to be a banker, but then I lost interest.

I dropped out of Communism class because of lousy Marx.

All the toilets in New York 's police stations have been stolen. The police have nothing to go on.

I got a job at a bakery because I kneaded dough.

Haunted French pancakes give me the crepes.

A cartoonist was found dead in his home. Details are sketchy.

Venison for dinner again? Oh deer!

The earthquake in Washington was obviously the government's fault.

Be kind to your dentist. He has fillings, too.

Velcro. What a rip off!

ANNIVERSARY PARTY

Join us to celebrate the 38th Anniversary of the founding of MMM, at our annual picnic and pool party. It will be held at the home of Gail and Alan Wolfe, 2298 Bennett Rd., Okemos, (Bennett Veterinary Clinic), near the corner of Bennett and Okemos Rds, on Sunday, August 5. Meet at about 2 PM and eat at about 4. Meat and soft drinks will be provided; bring a dish to pass. The Maron Stewart Scholarship Award of $500 will be presented to this years winner, Raelynne Ferden. Raelynn will be attending the party, so come to meet and congratulate her. Her award winning essay starts on page 8. This is a popular and fun event--hope to see you there! And don't forget your bathing suit.

LUGNUTS BASEBALL MEANS SCHOLARSHIP MONEY FOR MMM

John Garrison

It has been a few years since our Scholarship Fund has been in the black. This year there is hope on the horizon that we can again award local scholarships to those who enter our essay contest.

MMM has entered into an agreement with the Lansing Lugnuts Baseball team to operate food concessions at four of their home games this season. We must have at least 10 workers at each game. Admission and lunch are free. We will earn between $350 and $400 per game if we have the requisite number of volunteers. All of this money is slated for exclusive use for our scholarship program. A person can work one, two, three, or all four games.

We had a great turnout for the July 4th game--9 members/spouses showed up to work. Thanks everyone.

This is one time Mensa really needs not only your mind but your body too. We have one game left. Please think about helping out with this one.

Sunday - September 2 @ Noon (Labor Day Weekend)

The games will start about an hour and a half after we open the booth. Games usually take less than 3 hours.

Please contact John Garrison 517 349-7313 or Wendy Carnegie 517-339-1448 for more info or to sign up.

Diabologic: S.T.E.M. – S is for Science

by Frank Dolinar

As I noted in last month's column, in the early 21st century in America fewer students are interested in science than in years past. Many think that science is boring, that they aren't smart enough to study science, or both. Teachers may also be uncomfortable around or uninformed about science. Because of this, there has been a gradual move away from coursework in science, technology, engineering, and mathematics (STEM) education. An unfortunate trend.

I've been enamored of things science since my first introduction to it in the late 1950s, sitting in front of the television on Saturday mornings watching Mr. Wizard (Don Herbert). Some of you may know Don Herbert from the Nickelodeon series Mr. Wizard's World, which ran from 1983 to 1990.

I got interested in, and seriously addicted to, science well before I knew whether I was smart enough and never found it boring – occasionally difficult, but never boring. Somewhere in this process I found that I "got" what science was about. It's not what most people think it is. Natalie Angier is a Pulitzer Prize-winning journalist who writes for the New York Times. In her book ***The Canon: A Whirligig Tour of the Beautiful Basics of Science***, she says, "Science is not a body of facts. Science is a state of mind. It is a way of viewing the world, of facing reality square on but taking nothing on its face. It is about attacking a problem with the most manicured of claws and tearing it down into sensible, edible pieces."

This state of mind wants to know, needs to know, has a passion to know. For any given situation, it asks the "What If…" question that drives so much of science fiction, does everything in its power to remove the fiction from the conversation, then moves on to ask "How…".

For example, it's one thing to know that a light year (which is a measure of distance, not time) is approximately 5.87 trillion miles (that's a fact). It takes an understanding of the reasons for the propagation speed of electromagnetic radiation (the famous 'c' from Einstein's equation "$E=mc^2$") to get why 5.87 trillion miles is the right number (and that understanding is a state of mind).

Many science courses in school are presented by their teachers as a litany of facts that need to be memorized, which distorts the view of science and turns the study – of anything – into a joyless drudge.

Continued on Page 12

Diabologic--Continued

The first century Greek philosopher Plutarch has a message for such teachers. He said, “The mind is not a vessel to be filled, but a fire to be kindled.” Teachers who present science as nothing more than a litany of facts have forgotten (or possibly never learned) that their job is to be a fire-starter.

How does a teacher teach a student to play with matches without getting burnt?

Start with the concept of critical thinking, the process of assessing which ideas are reasonable, which are not, and why the difference exists. Getting it right requires the student to learn and to practice, practice, practice, as if the goal is performing at Carnegie Hall, all of which takes time and effort.

Popular culture in America has, apparently, come to a place where the need for instant gratification has pushed out of our daily lives the willingness to spend time to achieve a result. Why? Have we become so seduced by sitcoms, “reality” shows, and drugs to instantly banish our headaches, among other ills, that we no longer feel that effort is necessary.

> Learning is not something we can achieve with a pill.
>
> Learning science requires the time to think like a scientist, to make the effort to see the wherefore and why, to cultivate a passion to know, to light the fire.

The illumination that occurs when you understand some concept you’ve been grappling with can send a shiver through your nervous system. It’s happened to me a number of times. For example:

- seeing why the fundamental theorem of integral calculus works;
- recognizing that the names of compounds in organic chemistry conveys as much or more precise information as control statements in a computer programming language;
- understanding why a photon travels at, and only at, the speed of light.

Neil Shubin, a paleontologist at the University of Chicago, is quoted in Ms. Angier’s book. He says, “Science is not a rigid body of facts. It is a dynamic process of discovery. It is as alive as life itself.”

There is an excitement in the realm of science that is not achievable anywhere else.

As Don Herbert taught me, there is a magic and mystery to science.

London SIG of American Mensa

John Adams
Coordinator of London SIG of American Mensa

Traveling to London to compete in the Olympics this month? Or just going to watch. Whether you just wander through London, England, or the United Kingdom of Great Britain and Northern Ireland now and then, plan to do so someday, or are just interested in the world's largest local Mensa group and/or the foreign capital most visited by Americans, please consider joining the London SIG of American Mensa. No dues. No newsletter. Just a friendly group of Mensa members talking about London and announcing plans for events in London with other Mensa members.

We have two email lists: 1) london-announce for just the most important and moderated announcements about Mensa in and around London and 2) london-talk to provide a virtual pub for chatting about London and/or Mensa - a vast resource of information for any question you may have on the topic.

Mensa Gen Y SIG

Katie Jeffries
Regional Coordinator, Region 3, for Gen Y

Hello and welcome, GenY Mensans!

Under 40 and looking for comrades? Check out Gen Y SIG!
We are open to members 18-36, and looking to pull together activities for Ms our age. Pretty sweet, right?

Check us out on Facebook look up Mensa Gen Y Region 3 to get connected!

AUGUST 2012 CALENDAR

Fri, Aug. 3 **GRAND LEDGE HISTORICAL MUSEUM:** 118 W. Lincoln, Grand Ledge. Lincoln is the 3rd street south of the river. Learn about the beginnings of Grand Ledge! No charge, but a donation is nice.
CANCUN RESTAURANT: 300 S. Bridge St., Grand Ledge. After visiting the Historical Museum, enjoy a Mexican dinner at Cancun. By the corner of Rte 100 and Bridge St.

Sun, Aug 5 **ANNIVERSARY PARTY:** At the home of Al and Gail Wolfe 2298 Bennett Rd., Okemos, near the intersection with Okemos Rd. Gather at about 2; eat about 4 PM. See details on page 11 in the Head-Line.

Fri, Aug 10 **TGIF: DELHI CAFE:** 4625 Willoughby Rd., Holt. Greek and American food.

Fri, Aug 10 **STEERING COMMITTEE MEETING:** Following dinner.

Continued on Inside Back Cover

August 2012 Calendar--Continued

Fri, Aug 17 **TGIF: TOMATO BROTHERS:** 3030 W. Grand River Ave. Howell. This popular restaurant (Formerly Gus') is at the corner of Grand River Ave. and M-59 on the west end of Howell. It's near the Kensington Tanger Outlet Mall, so those interested can shop before and/or after dinner.

Wed, Aug 22 **ANNUAL MEET IN THE MIDDLE DINNER: ZHU NEW CENTURY:** 4108 E. Grand River Ave., Howell. It's on the east side of Howell. Meet with old and new friends from SEMM for our annual get-together.

Fri, Aug 24 **TIGF: HOUSE OF ING:** 4113 S. Cedar St., Lansing. Good Chinese food.

Sun, Aug 26 **LITSIG:** Meet at Wendy Carnegie's house, 1715 S. Crystal Cove, Haslett, at 1:30 P.M. We will discuss *State of Wonder* by Ann Patchett. Join us for snacks and discussion.

Fri, Aug 31 **TGIF: THE R CLUB:** 6409 Centurion Dr., Lansing. It's off Creyts Rd., just north of I-496.

Sun, Sept 2 **LUGNUTS BALL GAME:** This is the final game we are working. Arrive a 12:00 P.M. for the 2:05 P.M. game. Help the Scholarship Fund and join us working in the concession stand. **We need 10 people**. Wear Khaki slacks and a white top.

Fri, Sept 7 **TGIF: BRAVO CUCHINA ITALIANA:** 2970 Towne Centre Blvd. It's in the Eastwood Towne Centre. Great Italian food.

Fri, Sept 14 **TGIF: RESTAURANT MEDITERAN:** 333 S. Washington Square, Lansing. It's a "Taste of Europe in Downtown Lansing."

STEERING COMMITTEE MEETING: Following dinner.

TGIFs are on Fridays. We meet at 6:00 PM, but you're welcome at any time. Come and get acquainted. All members and friends are welcome at the events above. Any member may schedule an event. Please remember: who, what, when, where, and why. The deadline to schedule an event is the 15th of the month before the event. You can contact Elizabeth Evangelista, Calendar Coord., by regular mail: 5275 E. Hidden Lake Dr., East Lansing, MI 48823; by phone: 517-351-3645; or by email:evangel6@comcast.net
